Interior Environment Report Due in February To Guide Seismic Testing Off Atlantic Coast

The Interior Department plans to issue in February an environmental review required before any seismic testing for offshore oil and gas resources can occur off the Atlantic Coast, an agency official said Jan. 10....

Energy

Renewable Energy Lobbying Group Names New Chief Executive Officer

The American Council on Renewable Energy (ACORE) announced Jan. 10 that it has appointed Michael R. Brower as president and chief executive officer....

Hazmat Transport

Coast Guard Delays Chemical Categorization Updates

The U.S. Coast Guard is delaying the effective date of revisions to regulatory tables that identify hazardous materials that have been approved for maritime transportation in bulk until Jan. 16, 2015, according to a notice scheduled for publication...

Invasive Species

Advocates Back Hydrologic Separation

As Best Option in Army Corps Report

While the U.S. Army Corps of Engineers is presenting Congress with several options for preventing the transfer of aquatic nuisance species between the Great Lakes and Mississippi River basins, environmentalists said Jan. 9 complete hydrologic...

Mining

Response Deadline Extended in Dredge-and-Fill Case

The U.S. Supreme Court extended until Feb. 14 the deadline for the Environmental Protection Agency to respond in a lawsuit regarding its authority to veto portions of a dredge-and-fill coal mining permit issued by the U.S. Army Corps of Engineers...

Natural Resources

Russian Law Aims to Reduce Illegal Logging

By Introducing Timber Tracking System

A long-awaited law will introduce reforms in Russia's forestry industry aimed at decreasing illegal logging and complying with U.S. and European standards for verifying that wood imports are legally sourced....

Natural Resources

Russian Law to Decrease Protections

For Nature Reserves, Allow Development

An amended law will allow Russia's government to reduce the level of protection for some nature reserves to allow for the development of tourist and energy infrastructure, which environmental advocates say could destroy the country's...

Oil Spills

Fifth Circuit Upholds BP's Settlement

Of Claims From Gulf of Mexico Spill

A federal appeals court Jan. 10 upheld approval of BP Plc's \$9.2 billion partial settlement of private-party claims from the 2010 Gulf of Mexico oil spill (In re Deepwater Horizon-Appeals of the Economic and Property Damage Class Action...

Risk Assessment

NTP Issues Revised Preliminary Documents

On Trichloroethylene Carcinogenicity Review

The National Toxicology Program released two revised preliminary documents Jan. 10 regarding the review for the potential reclassification of trichloroethylene (TCE), which is mainly used as a metal cleaner and degreaser, in the "Report...

Sustainability

UN Warned Not to Meddle in Climate Treaty

With Upcoming Development Agenda

The post-2015 sustainable development agenda of the United Nations should complement but not meddle in efforts to reach a global agreement on climate change, ambassadors and climate experts told a UN working group....

Toxic Substances

EU Publishes 16 Exemptions to Directive

Restricting Use of Hazardous Substances

The European Commission has published 16 directives that each added an exemption to the bloc's 2011 Restriction of Hazardous Substances Directive (RoHS Directive, 2011/65/EU)....

Water Pollution

Agencies, Water Utility Cope With Emergency

From West Virginia Industrial Chemical Spill

A spill of coal-processing chemicals Jan. 9 triggered a state of emergency affecting as many as 300,000 people in West Virginia after the pollutants entered the Elk River just upstream from the intake pipe of a water treatment plant serving...

Water Pollution

EPA Gets Time to File Brief Appealing Nutrient Ruling

An appeals court has given the Environmental Protection Agency until Feb. 20 to file its opening brief to appeal a lower court decision requiring the agency to determine within six months whether states need to adopt numeric nutrient criteria...

Water Pollution

EPA to Miss Deadline for Issuing Final Cooling Water Intake Rule

The Environmental Protection Agency confirmed Jan. 10 that it will not meet the Jan. 14 court-ordered deadline to issue final regulations governing cooling water intake structures at power plants and industrial facilities....

Wetlands

Sierra Club Challenges Parking Expansion Proposed by California Coastal Commission

The Sierra Club's San Diego Chapter has filed a lawsuit challenging the proposed expansion of parking at the Del Mar Fairgrounds, alleging the California Coastal Commission broke state law in issuing the permit requested by the 22nd District...

OUTLOOK 2014

Air Pollution

EPA Readies New Pollution Transport Rule While Awaiting Court Decisions on Authority

The Environmental Protection Agency in 2014 will prepare a new proposed rule to address the interstate transport of air pollution even as the agency waits for the U.S. Supreme Court to rule on its prior regulation....

Climate Change

California to Focus on Carbon Market, Updating Climate Change Policies in 2014

California kicked off 2014 by formally linking its year-old carbon market with Quebec's greenhouse gas emissions cap-and-trade program....

Climate Change

EPA Moves to Regulate Carbon Emissions From Power Plants; U.S. Looks to Paris Deal

The Obama administration is expected to move ahead in 2014 with new limits on power plant carbon dioxide emissions, a significant step toward fulfilling the president's pledge to address climate change in his second term in the absence...

Energy

Best Chance for Action on Renewables, Efficiency Could Come From Administration

With little chance of congressional passage of major energy legislation in 2014, the best prospects for action on renewables and energy efficiency may lie with the executive branch....

Sustainability

Companies Likely to Focus on Improving Quality of Sustainability Reporting in 2014

Companies are expected to place a stronger emphasis on improving the quality of their disclosures of greenhouse gas emissions, water use and other environmental data in 2014, according to corporate sustainability analysts....
